On October 24, 2003, the undersigned held a scheduled telephone conference call with Examiners Michael Hoye and John Miller. Georgann Grunebach (Reg. No. 33,179) and Mark Zimmerman (Reg. No. 44,006) were also in attendance for the telephone conference call.

As an initial matter, the undersigned, Georgann Grunebach, and Mark Zimmerman would like to thank Examiners Hoye and Miller for their time and effort in preparation for and during the telephone conference call.

During the telephone conference call, the parties discussed refining the claim language for claims 1, 11, and 16 to obtain allowance of the above-referenced patent application. The claim language related to cache program data and boot objects were discussed. While no agreement was reached regarding particular claim language, the Hawkins et al. (U.S. Patent No. 6,005,561) and Wood et al. (U.S. Patent Application

Publication No. US 2002/0054752) references were discussed, as was general nature of claim amendments to focus on cache program data to more clearly define over Hawkins et al. and Wood et al.

Respectfully submitted,
